

Product Information

Osteo-Form

Chewable Calcium and Phosphorus Supplement For Dogs and Cats

Advantages

- Calcium-Phosphorus ratio of 1.8 to 1
- Vitamin A, D and C - all involved in bone and cartilage metabolism
- Aids in healing fractures
- For young puppies of large breeds during rapid growth periods
- Ideal for pregnant and lactating bitches

Indications:

For use as an aid in the prevention and correction of dietary deficiencies of calcium, phosphorus and vitamins A and D and ascorbic acid in dogs and cats. Osteo-Form is particularly indicated for fast growing puppies of large breeds as well as pregnant and lactating bitches.

Dosage:

As an aid in the correction of dietary deficiencies, give 2 to 4 tablets per 5 kilograms (11 pounds) of body weight daily. For the prevention of dietary deficiencies and the healing of fractures, give 1 to 2 tablets per 5 kilograms (11 pounds) of body weight per day.

Administration:

Osteo-Form tablets may be fed free choice from the hand, or may be crumbled and mixed into the pet's food. For additional flavor release, moisten before offering to the pet.

Each scored tablet contains:

Calcium	600 mg
Phosphorus	335 mg
Vitamin A	750 IU
Vitamin D3	75 IU
Ascorbic acid (Vitamin C)	10 mg

Ingredients:

Calcium phosphate dibasic, calcium carbonate, meat by-products, dried yeast, bone ash, bone meal, ascorbic acid, vitamin A acetate and cholecalciferol (source of vitamin D3).

HOW SUPPLIED:

Bottles of 50, 150 and 500 tablets
