

Product Information

Tech-o-lyte®

(Soluble Granules)

About the Product

Tech-o-lyte® changes plain drinking water into a power-packed acidified solution of vitamins, minerals, bacteria, enzymes, electrolytes, and yeast in combination with a citrus flavor that young animals crave. It is 100% soluble in water or milk-replacer. Because of its structure, it is used in organic methods and chemical/drug methods with equal performance. **Tech-o-lyte®** in combination with a sound feeding program, will help get livestock off to a good start.

Vitamins:

Fat Soluble

A, D³, E, K³

Water Soluble

d-Biotin, B¹, B⁶,

Folic Acid,

Niacin,

Pantothenic Acid,

C, B¹², B²

Minerals:

Soluble Trace

Zinc (Zn)

Copper (Cu)

Iodine (I)

Iron (Fe)

Manganese (Mn)

pH Balance:

Buffered for

Stability

Fumaric Acid

Citric Acid

Sodium

Bicarbonate

Sodium Sulfate

Active Yeast:

Live Cell Blend

Saccharomyces

cerevisiae

Source of

Enzymes

Additional

B-vitamins

Microorganisms:

Live (Viable) Bacteria Blend

Lactobacillus acidophilus

Lactobacillus casei

Lactobacillus fermentum

Lactobacillus plantarum

Streptococcus faecium

Electrolytes: *Source of Electrolytes*

Potassium (K), Sodium (Na),

Magnesium (Mg), Chloride (Cl)

Directions (Water):

(When using proportioners, use warm water)

Dairy/Veal Calves: Add ½ Tsp. per gallon of milk-replacer. Use twice a day and continue until weaning.

Guaranteed Analysis: (Per Pound)

Zinc(Zn), minimum 0.14% (1400 ppm)

Vitamin E, minimum 1000 IU

Potassium (K), minimum 1.40%

Available In

1 Pound Paks (4563.6 gm)

12/Dispenser Box Carton

48/Case

(4 Cartons of 12 Each)
